

Executive Board proposal to the Student Union Council 26 Oct 2016

TYY's three-year plan for 2017–2019

The targets of medium-term influence and aims of the Student Union of the University of Turku (TYY) have been described in this three-year plan. The purpose of the three-year plan is to bring continuity and perseverance in influence and to support the planning of over-year activities. The results of influence are reviewed and impacts are assessed annually upon the revision of the three-year plan. The purpose of the three-year plan is not to be a description of TY Y's continuous activities.

theme	2017	2018	2019
Adjustment programme of University finances	The benefits of the chosen adjustment measures shall be reached and their harm shall not become unreasonable.	University adjustment measures shall have been realised in cooperation with the community without weakening the position of students.	Eventual shortages in the adjustment and development programme shall have been observed and shall be corrected.
Flexible Study modes	Open university courses shall be in the summer available cost-free for basic degree students. Development projects enable digitalisation and utilisation of new pedagogical methods.	Study curriculum work shall increase the flexible modes of studying Multi-modal learning environments shall be widely used.	Pedagogical skills and digital and flexible teaching methods shall be seen as a resource that one should master in teaching.
Participation in the University decision-making	Election criteria for University Board members shall be clear, and the election process hears students' opinion.	University Board hears the opinion of the university community when making decisions. The Student Union develops its relations with other university groups	Election of Rector and Deans hear the university Community widely. Units may elect their own directors.
Student healthcare	<i>TY Y influences actively in the planning work of the new study subsidy model guaranteeing everyone an equal opportunity to higher education.</i>	The position of FSHS in the social and healthcare reform shall be guaranteed and the financial structure shall be stabilised.	FSHS activities have been stabilised in the new social and healthcare model, and its expertise in students' health issues is widely recognised. Enlargement to polytechnics shall be realised or is about to

		Political decision-makers have committed to enlarge FSHS to polytechnics students.	be realised.
Well-being and income	<p>Changes in study subsidy and housing aid will be communicated to students, university staff and interest groups. University reviews necessary changes in the structures of education and instruction.</p> <p>When the study subsidy result is clear, counselling services for students' income shall not become weaker. TYY promotes maintaining Financial Aid Boards.</p> <p>Students' wellbeing programme of the university shall come into force and students' influence possibilities in study ability work shall increase. TYY actively promotes the adoption of measures in accordance with the programme and the realisation of student representation.</p>	<p>When students' income is tightened, the structures of education and counselling are flexible and support study progress. Students have a genuine possibility to complete a degree in Kela's required deadline.</p> <p>The impacts of the new housing aid system have been assessed and recognised by the state. The system has improved study requirements.</p> <p>Well-being work of the university and students' participation in the work shall become stabilised. Responsibility is well assigned in well-being work and cuts through the university.</p>	<p>The results of basic income trial shall be reviewed and reacted to.</p> <p>With well-being work, the well-being of students has been improved and the knowledge of support services has been increased.</p>
Common university sports	The success of the pilot phase of CampusSport shall be assessed based on user experiences. In the future, further resources are particularly directed at increasing sport premises.	Students shall be aware of the sports possibilities and services. Sports shall be a significant part of the everyday life of most students.	

		The amount of sports premises and variety of sports have been increased. New ball games hall shall also provide evening turns for student use.	
Premise questions	New students' celebration premises shall be opened for use. Funds shall be raised to equip the premises and to increase the usage rate.	Celebration premises shall be widely available for organisations and all costs incurred from use can be covered with rent income.	TYY shall have a plan on a longer-term premise solution together with TYS and the City.
Organisations	Cooperation and communication modes between TYY and organisations shall be developed. The concept of organisation trainings shall be stabilised.	Small group meetings of Chairs, Council of Chairs, and organisation trainings shall be popular and deemed useful.	Chairs shall actively participate in meetings and also encourage their followers to participate in those. All organisations participate in TYY training events. Organisations participate and influence TYY's activities.
City and society influence influence	Aims of students are in the core in the public debate before municipal elections. Elected candidates shall be committed to students' aims, aims, and the aims shall be included in city council agreement. TYY prepares for provincial elections by mapping subject entities essential for students in the provincial decision-making.	Turku shall be Finland's most student-friendly city, where students' voice is heard and students' municipal aims shall be concretised into actions. Provincial elections shall elect candidates which have a positive approach towards FSHS and students' aims. Rauma and Pori student organisations conduct influential cooperation in Satakunta before elections. Preparation for 2019 parliamentary elections shall be conducted.	Turku shall be the most inspiring student city of the Baltic Sea region. TYY's relations with different parties in Turku and with city officials and provincial administration shall be fluent. Students' parliamentary elections campaign shall be visible, nationally unified and influential. The programme the new government shall be education-friendly. Organisations in Rauma and Pori have regular contact with the decision-makers in towns and in the province.

Development of company cooperation	<i>Possibilities for company cooperation shall be enlarged and practices shall be stabilised. TYY shall be turned into an even more interesting cooperation partner.</i>	The distribution of work in the sector shall become stabilised and the yield of company cooperation shall grow.	The yield of company cooperation shall be at least doubled from the 2016 level.
---	--	---	---

	<i>be turned into an even more interesting cooperation partner.</i>	TYYY shall be a wanted and profitable cooperation partner, which aims at improving the students' internship positions with company cooperation.	TYYY shall have created significant cooperation relations, which help delivering meaningful internship positions for students.
International students	<p>Student organisations and staff shall be supported and influenced to develop and enlarge cooperation. Training for organisations and student representatives shall be regularly organised. Company visits shall be stabilised as part of the activities of TYY and Employment Services. Finnish language studying shall be encouraged.</p>	<p>Each Master's programme shall have at least one international student representative.</p> <p>Student Village Foundation and the city provide international students with enough apartments. Each Master's programme shall include an obligatory Finnish language course. All doctoral students shall be organised regular meetings.</p>	<p>Grants for Master's programmes shall be wide-ranging, but annual fee shall be seen as a load, and abolishing them shall be nationally promoted.</p> <p>Employment of those graduated from Master's programmes shall be monitored by the university.</p> <p>All university degrees shall include high-quality parts supporting internationalisation.</p> <p>Service provision for all doctoral students provided by the Student Union shall be tempting and extensive.</p>
Changes in the development cooperation	<p>The entity of development work after the end of the Mexico project shall be clear. TYY shall have a joint development cooperation project with SYL and Student Unions or other party.</p>	<p>Methods of participation in new, common development cooperation shall be stabilised and known. Sustainable development shall be visible in the studies of different disciplines.</p>
